

Inspection Report – Cracking or Dampness Problems

To determine the cause of your cracking or dampness problem, how serious it is and what to do to rectify it ~ Contact BSS

The following are typical examples of matters covered:

- Cracking walls**
Know what the cause is and the steps to rectify/resolve the problem(s)
- Settlement of walls & slabs**
Steps to take to address the cause(s) & consequences
- Rising Damp**
Know what the cause is and how to fix it
- Leaking Showers**
Know what the cause is and how to fix it

A BSS Building Inspection Report is a professional, independent and comprehensive assessment of your problem. The report will identify any issues, concerns or required rectification.

BSS can refer you to qualified specialist contractors who can undertake the required works.
